## Nº momentos Higiene das Mãos

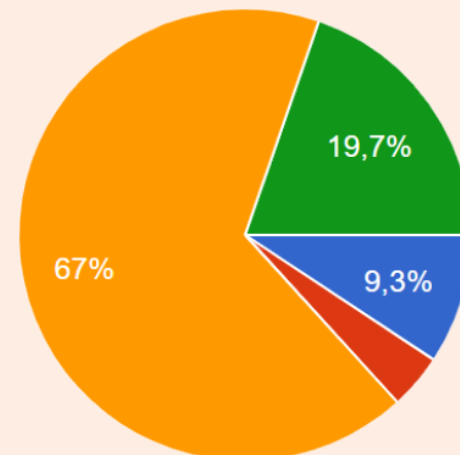

## Momento mais importante Higiene das Mãos

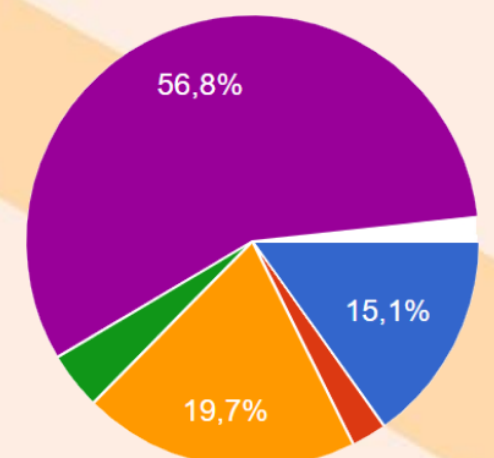

## Momento mais difícil de cumprir

## Grupo Profissional com menor taxa de adesão

## Melhor estratégia para melhorar adesão

- Antes do contacto com o doente
- Antes de um procedimento limpo/assético
- Após risco de exposição a fluidos orgânicos
- Após o contacto com o doente
- Após o contacto com o ambiente envolvente do doente

- Assistentes Operacionais
- Enfermeiros
- Médicos
- Outros Profissionais de Saúde

- Formação formal/informal
- Informação genérica (cartazes, folhetos)
- Cooperação entre pares no local de trabalho
- Sensibilizar utentes a apelar à higiene das mãos
- Todas as anteriores
